What’s New at Arnold’s Greenhouse
About Arnold’s

• Located in Le Roy, KS
• Founded in 1977 by George and Rita Arnold
• 2 acres under cover
• All perennials, annuals, roses, and some shrubs grown in-house
• ~1500 varieties grown.
Best of 2019/2019 Re-Cap

• Dancing Geisha Dianthus
• Caiman Tomato
• Popcorn Plant! (Unfortunately unavailable for 2020)
• Super Hot Peppers
• Pugster Buddleia, all colors
• Osteospermum, all colors
• Blue Brulee and Crème Brulee Hardy Hibiscus
• Mexican Flame Vine
• Hypoestes ‘Hippo White’
2020 Perennial Plant Association Plant of the Year!

• Summer Spice Blue Brulee Hardy Hibiscus!
• Fantastic and unique new color in hardy hibiscus!
• Unfortunately, we never got to see them bloom last year because we sold out so fast.
2020 Arnold’s Calendar

• Open for Spring on March 1st (weather permitting)

• Spring Planting Days, 3rd week of March. All Cole Crops and Early Spring Annuals (Pansies, Osteospermum, etc...) 10% off March 16th – 21st

• Ribbon Cutting the second Weekend of April! April 6th-10th come to Arnold’s for 10% off all plants!

• Mother’s Day Rose Sale. Select roses (to be announced) 25% off May 4th-9th

• Native Plant Week the first week of June. All native perennials 25% off June 1st to the 6th
Perennials
Achillea 'Firefly Amethyst'

- Height: 18.0-22.0 Inches
- Spread: 32.0-36.0 Inches
- Hardiness Zones: 3, 4, 5, 6, 7, 8
- Flower Color: Pink shades
- Foliage Color: Green shades
- Sunlight: Full Sun (> 6 hrs. Direct Sun)
- Water Requirements: Low to Average Water Needs
- Soil Quality: Poor to Average Soil Quality
- Soil Chemistry: Acidic Soil (pH < 7.0) or Neutral Soil (pH = 7.0)
- Bloom time: All summer
- Attracts Pollinators
- Deer & Rabbit Resistant

https://www.waltersgardens.com/variety.php?ID=ACHFA
Achillea 'Firefly Diamond'

- Height: 18.0-22.0 Inches
- Spread: 32.0-36.0 Inches
- Hardiness Zones: 3, 4, 5, 6, 7, 8
- Flower Color: White shades
- Foliage Color: Green shades
- Sunlight: Full Sun (> 6 hrs. Direct Sun)
- Water Requirements: Low to Average Water Needs
- Soil Quality: Poor to Average Soil Quality
- Soil Chemistry: Acidic Soil (pH < 7.0) or Neutral Soil (pH = 7.0)
- Bloom time: All summer
- Attracts Pollinators
- Deer & Rabbit Resistant
Echium amoenum ‘Red Feathers’

- Height: 12-15 Inches
- Spread: 8-10 Inches
- Hardiness Zones: 3, 4, 5, 6, 7, 8, 9
- Flower Color: Pink shades
- Foliage Color: Blue-green shades
- Sunlight: Full Sun (> 6 hrs. Direct Sun)
- Water Requirements: Low to Average Water Needs
- Soil Quality: Sandy-Average
- Bloom time: Late spring – Mid-summer
- Attracts Pollinators
- Deer & Rabbit Resistant
- https://www.highcountrygardens.com/echium-red-feathers
Hibiscus 'Summer Carnival'

- We're always on the hunt for something cool and different in Hardy Hibiscus. Unlike other variegated varieties, 'Summer Carnival' displays excellent vigor, has great flower coverage, and forms a beautifully shaped habit. 7", dark magenta pink flowers cover the upright, rounded habit. Each leaf has a narrow cream margin and the edges have a hint of blush. The perfect collector's item!

- Height: 4.0-4.5 Feet
- Spread: 5.0-5.5 Feet
- Hardiness Zones: 4, 5, 6, 7, 8, 9
- Flower Color: Red shades
- Foliage Color: Green shades, Variegated
- Sunlight: Full Sun (> 6 hrs. Direct Sun) to Part Shade (4-6 hrs. Direct Sun)
- Water Requirements: Average to Consistent Water Needs
- Soil Quality: Poor, Average, or Fertile Soil Quality
- Soil Chemistry: Acidic Soil (pH < 7.0)
- Bloom time: Late Summer-Early Fall
- Attracts Pollinators
- Deer Resistant
Iris

A. Devil’s Playground
   • Burgundy and Cream Flowers
   • Early-Midseason Bloom time
   • 24” tall

B. Dude
   • Yellow and Mauve Flowers
   • Early-Midseason Bloom time
   • 26” tall

C. Frisky Frolic
   • Pink Standards, purple and pink striped Falls
   • Early-Midseason
   • 26” tall

D. Starwoman
   • Purple Standards, Purple/White bicolor falls
   • Early
   • 25” tall
Liriope miscari 'Pee Dee Gold Ignot'

- Striking yellow young foliage matures to deep golden or chartreuse and holds its color year-round. Brightens shady areas as an edging or ground-cover. Short spikes of slender lavender flowers add contrasting interest. Evergreen.
- Height: 10-12 Inches
- Spread: 18-24 Inches
- Hardiness Zones: 5-11
- Flower Color: Lavender
- Foliage Color:
- Sunlight: Full-Partial shade
- Water Requirements: Water Regularly
- Soil Quality:
- Soil Chemistry:
- Bloom time: Late Spring-Early Summer
Othonna capensis 'Little Pickles'

- Little Pickles (*Othonna capensis*) (Bailey): Pudgy, blue green leaves resemble tiny pickles. This vigorous species forms a dense mat and individual stems can grow up to 3.0' long, making it a great choice for both ground cover and hanging baskets. It produces large, daisy-like yellow blooms on tall bloom stalks. Closely related and similar looking to *Delosperma* (Ice Plant), Little Pickles is a strong grower and roots readily.

- Othonna are easy, resilient plants that thrive outdoors with full sun and great drainage. They need protection from frost, but will happily overwinter indoors on a sunny sill. Use well-draining pots and soil. Regular water will help young plants establish roots and spread quickly, but mature Othonna can tolerate several months of drought. If you choose to propagate by hand, cut off 2.0"+ of stem and transplant it to re-root.

- Height: 3-5 Inches
- Spread: Inches
- Hardiness Zones: 6-9, 5 with protection and perfect drainage
- Flower Color: Yellow
- Foliage Color: Blue-green
- Sunlight: Full Sun
- Water Requirements: low
- Attracts Pollinators
- Deer & Rabbit Resistant
**Rudbeckia 'Little Henry'**

- Sweet Coneflower is native throughout the Midwest and down to Texas. This distinctive selection is a narrow, upright compact grower with strong branching stems and attractive green foliage topped off with charming, brown-eyed daisies that have unusual narrow or quilled yellow petals, appearing midsummer. Reported to be similar to R. ‘Henry Eilers’ but one third shorter. Long-blooming. Flowers are attractive to butterflies and excellent for cutting. Grows in a variety of soil conditions from moist to fairly dry. Cut back to the ground in early spring. A recent introduction from Terra Nova Nurseries of Oregon.

- Height: 31-35 Inches
- Spread: 21-23 Inches
- Hardiness Zones: 4-9
- Flower Color: Yellow
- Foliage Color: Green
- Sunlight: Full Sun
- Water Requirements: Dry-Moist
- Soil Quality: Normal, Sandy, or Clay
- Soil Chemistry: Not Picky
- Bloom time: Late Summer-Early Fall
- Attracts Pollinators
- Deer & Rabbit Resistant
Scrophularia macrantha 'Cardinale Red'

• This one has it all. It flowers continuously from June until frost with deep red “bird like” flowers, giving it the common name “Red Birds in a Tree”. In addition CARDINALE™ Red has leaves that are a fresh green color, a short, bushy habit, and the hummingbirds love it. Drought tolerant once established. A new version of the high elevation New Mexico native.

• Height: 21-22 Inches
• Spread: 20 Inches
• Hardiness Zones: 5-10
• Flower Color: Red
• Foliage Color: Green
• Sunlight: Full Sun
• Water Requirements: Low
• Soil Quality: Poor
• Soil Chemistry: 5.5 - 7.0 pH
• Bloom time: June-October
• Attracts Hummingbirds
• http://www.terranovanurseries.com/product/scrophularia-cardinale-red/
Sedum 'Rock N Grow Boogi Woogi'

- People love variegation in perennials, and this is an exciting new option! Enter 'Boogie Woogie', a fantastic summer-flowering ground-cover type that will definitely make your garden feel groovy. This sport of 'Little Miss Sunshine' has cream margins that make the plant look bright and yellow all over and are sprinkled with yellow flowers during early to midsummer. A fantastic variegated option for a ground-cover in the landscape. Perfect for rock gardens!

- Height: 6-8 Inches
- Spread: 16-18 Inches
- Hardiness Zones: 3-9
- Flower Color: Yellow
- Foliage Color: Green Variegated
- Sunlight: Full Sun
- Water Requirements: Low-Average
- Soil Quality: Poor-Average
- Soil Chemistry: Not Picky
- Bloom time: Early Summer
- Attracts Pollinators
- Rabbit Resistant
**Silphium laciniatum** (Compass Plant)

- No those aren't sunflowers, those are Compass Plants! A true icon of the prairies, these lovely plants are an incredible addition to your landscape. Given moist, rich soils, mature compass plants can reach upwards of 8 feet in height. It is quite a sight to see pollinators flit from flower to flower while birds, like Goldfinches, will perch upon the strong stems pecking for insects or seeds.

- Height: 8 Feet
- Spread: Inches
- Hardiness Zones: 3-9
- Flower Color: Yellow
- Foliage Color: Green
- Sunlight: Full-Partial Sun
- Water Requirements: Dry-Moist
- Soil Quality:
- Soil Chemistry:
- Bloom time: June-September
- Attracts Pollinators
- Deer & Rabbit Resistant
Spigelia marilandica 'Little Redhead'

• Spigelia is underutilized in the landscape due to limited availability, but it's poised to make an explosion in popularity. Why? It’s a very versatile perennial—it grows naturally in either sun or shade. This perennial can be found growing in the wild in woodlands and along stream banks throughout the Eastern United States. It's wildly popular among wildflower enthusiasts and highly sought after.

• Height: 24-28 Inches
• Spread: 20-24 Inches
• Hardiness Zones: 5B-9
• Flower Color: Red
• Foliage Color: Green
• Sunlight: Full Sun-Part Shade
• Water Requirements: Average-Consistent
• Soil Quality: Average-Fertile
• Soil Chemistry:
• Bloom time: Late Spring - Mid-summer
• Attracts Hummingbirds
• https://www.waltersgardens.com/variety.php?ID=SPILR
Verbascum 'Honey Dijon' 

- A compact Mullein selection, this is absolutely perfect in containers, for edging borders or in the sunny rock garden. Crispy-green leaves are held in a low rosette, bearing masses of short spikes of satiny blooms in shades of peach and gold, with a plum eye, for months. Remove spent blooms to encourage more buds. Excellent drainage is necessary in wet winter areas.

- Height: 6-8 Inches
- Spread: 12-14 Inches
- Hardiness Zones: 5-9
- Flower Color: Golden-orange
- Foliage Color: Green
- Sunlight: Full Sun
- Water Requirements: Low
- Soil Quality: Normal or Sandy
- Soil Chemistry: Not Picky
- Bloom time: Early Summer-Early Fall
- Attracts Pollinators
- Deer & Rabbit Resistant
Veronica prostrata 'Aztec Gold'

- This selection is a lower growing Speedwell, best suited for use in the rock garden, or for edging perennial borders. Plants form a compact, mounding clump of rich golden-yellow leaves, contrasting beautifully with the bright-blue flowers in late spring. Trim plants back after blooming. Foliage becomes chartreuse in partial shade. Also worth considering for use in mixed containers, the foliage contrasting beautifully with other plants.

- Height: 4-6 Inches
- Spread: 8-12 Inches
- Hardiness Zones: 2-9
- Flower Color: Deep Blue
- Foliage Color: Gold
- Sunlight: Full Sun-Part Shade
- Water Requirements: Average-Moist
- Soil Quality: Normal, Sandy, or Clay
- Soil Chemistry: Not Picky
- Bloom time: Late Spring-Early Summer
- Deer & Rabbit Resistant
Veronica 'Snowmass'

- Snowmass® Blue-Eyed Speedwell (Veronica Snowmass P018S) is a handsome ground-cover speedwell with glossy evergreen foliage that blooms in mid-spring with a profusion of white-petaled, blue-eyed flowers. Excellent spring bulb companion. Plant Select 2017.
- Height: 1-2 Inches
- Spread: 18 Inches
- Hardiness Zones: 3-10
- Flower Color: Blue, White
- Foliage Color: Green
- Sunlight: Full Sun
- Water Requirements: Low
- Soil Quality: Not Picky
- Soil Chemistry:
- Bloom time: Late Spring-Early Summer
- Attracts Pollinators
- Deer Resistant
Andropogon gerardii 'Blackhawks'

- Big Bluestem are perfect for providing height and color to the garden, coming into prime a little earlier than other ornamental grasses. The foliage of 'Blackhawks' emerges deep green to dark purple in spring and deepens to near black by fall. This grass matures a little more than a foot shorter than 'Indian Warrior'. One of the very best Big Bluestem from hybridizer Brent Horvath.
- Height: 5 Feet
- Spread: 2 Feet
- Hardiness Zones: 3-9
- Foliage Color: Purple-Near Black
- Sunlight: Full Sun
- Water Requirements: Not Picky
- Soil Quality: Poor-Average
- Soil Chemistry: Acidic-Neutral
- Bloom time: Late Summer
Andropogon gerardii 'Dancing Wind'

- Excellent red coloration, graceful seed-heads
- Height: 6 Feet
- Spread: 2 Feet
- Hardiness Zones: 3-9
- Foliage Color: green in spring with red tips developing in mid to late summer. Dark red to scarlet fall/winter color
- Sunlight: Full Sun
- Water Requirements: Not Picky
- Soil Quality: Poor-Average
- Soil Chemistry: Acidic-Neutral
- Bloom time: Late Summer
Carex 'evercolor Everillo'

- This selection from the Evercolor® series forms a cascading mound of bright, lime-green leaves that turn yellow-gold as they mature. Outstanding color. Discovered in a tissue culture laboratory in Ireland in August 2006 by Pat FitzGerald of FitzGerald Nurseries of Kilkenny, Ireland. Mutation of C. ‘Evergold'. If the tips of the leaves get wind-burn over the winter, they may be trimmed with scissors in the spring. This is a well-behaved plant. Clumps may be divided in early spring. Tolerates dry shade with occasional watering. Evergreen.

- Excellent alternative to Hachenocola
- Height: 12-18 Inches
- Spread: 12-18 Inches
- Hardiness Zones: 5-9
- Foliage Color: Light Green
- Sunlight: Full Shade-Partial Sun
- Water Requirements: Water Regularly
Panicum 'Bad Hair Day'

• First Hybrid Panicum introduced to the market. Unique habit, gracefully cascading foliage. Excellent specimen, provides contrast to more rigid and formal plants.

• Height: 71 Inches
• Spread: 88 Inches
• Hardiness Zones: 4-8
• Foliage Color: Blue-green
• Sunlight: Full Sun
• Water Requirements: Not Picky
• Soil Quality: Poor-Average
• Soil Chemistry: Acidic-Neutral
• Bloom time: Late Summer
• http://www.chicagolandgrows.org/grass/badhairday.php
Annuals
Aeschynanthus lobbianus 'Lipstick Assortment'

- While typically thought of as a houseplant, can also spend the summer outside.
- Height: 6-12 Inches tall, cascading to 3’
- Flower Color: Assorted colors
- Foliage Color: Evergreen, Textured
- Sunlight: Sun to Partial Shade
- Bloom time: Late Summer/Early Fall
Begonia Angelwing 'Looking Glass'

- Height: 18-24 Inches
- Flower Color: Pale Pink, White/Near White
- Foliage Color: Silver
- Sunlight: Light Shade
- Water Requirements: Average Water Needs
- Bloom time: Mid Summer, Late Summer/Early Fall
Begonia Angelwing 'Morocco'

- Unique, fuzzy leafed angel wing begonia!
- Height: 6-12 Inches
- Flower Color: White/Near White
- Foliage Color: Burgundy/Maroon
- Sunlight: Light Shade
- Water Requirements: Average Water Needs
- Bloom time: Mid Summer, Late Summer/Early Fall
- [https://ncfarmsinc.com/unrooted-cuttings/Begonia-Morocco](https://ncfarmsinc.com/unrooted-cuttings/Begonia-Morocco)
Brachyscome 'Jumbo Yellow' and ‘Jumbo Rose’

• Compact, well branched straw flower. More tolerant of cooler temperatures than normal straw flowers. Plays well with others in mixed combo pot.
• 10”-12” tall and wide
• Flower Color: White, Cream, Yellow
• Foliage Color: Green
• Sunlight: Full Sun, heat tolerant
• Water Requirements: Average Water Needs
Calibrachoa ‘Minifamous Neo Double Orangetastic’

- Height: 8 - 12 Inches
- Flower Color: Yellow, Red
- Foliage Color: Green
- Sunlight: Full Sun
- Water Requirements: Average Water Needs
- Bloom time: Summer, Autumn, Late Summer, Spring, Late Spring
- https://www.ballseed.com/PlantInfo/?phid=066007160042178
Cleome 'Crème De La Crème'

- Height: 24-30 Inches
- Flower Color: Pale Pink
- Foliage Color: Green/White Variegated
- Sunlight: Full Sun
- Water Requirements: Moderate-High
- Bloom time: Mid Summer, Late Summer/Early Fall
- [https://www.peacetreefarm.com/plants/cleome-creme-de-la-creme/]
Coleus Sun 'Heartbreaker'

- Height: 14 - 26 Inches
- Foliage Color: Purple, Pink, and Green
- Sunlight: Shade-Sun
- Water Requirements: Average Water Needs
- Bloom time: Summer, Autumn, Late Spring, Spring
- [https://www.ballseed.com/PlantInfo/?phid=018000001042262](https://www.ballseed.com/PlantInfo/?phid=018000001042262)
Dahlia 'Sincerity'

- Height: 20-24 Inches
- Flower Color: Pale Pink
- Foliage Color: Green
- Sunlight: Full-Part Sun
- Water Requirements: Average Water Needs
- Bloom time: mid- to late summer and early fall
- https://www.whiteflowerfarm.com/dahlia-sincerity
Didelta fancifillers 'Silver Strand'

- New genus just introduced to the market for 2020! With its compact size and silvery foliage, try this exciting new drought tolerant annual in a succulent bowl!
- Height: 6-8 Inches
- Foliage Color: Silver
- Sunlight: Full Sun
- Water Requirements: Low
Fern 'Blechnum brasiliense'

- One of the easier Tree Ferns to grow, does well alone as a specimen plant or even as the thriller in a mixed planter. Fronds burn in wind, not suitable for exposed locations.
- Will form short “trunk” with age (tree fern trunks are made up of roots). With that in mind, tree ferns appreciate having their trunks watered.
- Height: 3-4 Feet
- Foliage Color: New fronds are Reddish
- Sunlight: Sun-Light Shade
- Water Requirements: High
Fern 'Microsorum grossum Laua'e'

- Stunning glossy green foliage foot fern. Foliage is fragrant when crushed in fact its name means “beloved” or “sweet” in Hawaiian.
- Lends itself equally well to a shady patio in the summer or indoors in the winter.
- Foliage Color: Green
- Sunlight: Shade
- Water Requirements: Average-High
Fern Microsorum ‘Kangaroo Paw Fern'

• Foot Fern, named for the Kangaroo paw like appearance of its “feet” as they creep over the edge of its pot.
• Well suited to hanging baskets where its unique feet can be shown off.
• Foliage Color: Green
• Sunlight: Shade
• Water Requirements: Average-High
Geranium, Zonal 'Dynamo Pink Flare'

- Height: 12 - 14 Inches
- Flower Color: Pink Bi-Color
- Foliage Color: Green
- Sunlight: Full-Part Sun
- Water Requirements: Average Water Needs
- Bloom time: Spring-Fall
Hypoestes 'Hippo Pink’ and ‘Hippo Red’

- Hippo White was such a hit that we dropped all other Hypoestes varieties and added these two other colors from the Hippo Series
- Like a Hypoestes on steroids!
- Height: 16 - 22 Inches, vigorous
- Foliage Color: Pink & Green or Red & Green Variegated
- Sunlight: Full Sun-Full Shade
- Water Requirements: Average Water Needs
- Proven Winners!
Nemesia 'Sunglow Purple Bicolor'

- Height: 18-24 Inches
- Flower Color: Purple & Yellow Bi-color
- Foliage Color: Green
- Sunlight: Part Shade- Sun
- Water Requirements: Average Water Needs
- Bloom time: Mid Summer, Late Summer/Early Fall
- [https://www.ballseed.com/PlantInfo/?phid=043904405004345](https://www.ballseed.com/PlantInfo/?phid=043904405004345)
Osmanthus ‘Variegatus’ False Holly

- Unique patio plant
- Variegated holly-like leaves
- Zone 7-9 (not hardy here)
- 6-10’ tall (much smaller in a pot)
- Add texture to mixed containers!
- Average water needs
Philodendron ‘Danadu’

- Dark, glossy, deeply cut foliage
- Not a vining Philodendron, grows in a compact mound up to 2’-3’ in height and width.
- More profuse foliage than other cut-leaf philodendrons
- Perfect plant to summer outside and winter inside on a sunny windowsill.
Plectranthus 'Guacamole'• Height: 18-24 Inches
• Foliage Color: Green & Gold
• Sunlight: Part Shade-Full Sun
• Water Requirements: Moderate-High
• https://www.hillcrestnursery.com/plant/Begonia-coccinea-Angel-Wing-Looking-Glass
Pomegranate ‘Peppy Le Pom’

- Dwarf Ornamental Pomegranate
- Orange flowers, long bloom time, edible (but small) pomegranates
- Perfect patio plant/Houseplant (treat like citrus)
- Full Sun
- 48” tall 36” wide
Sweet Potato Vine 'Sidekick Lime Improved'

- Height: 10-12 Inches
- Spread: 2-3 Feet
- Foliage: Lime Cut-leaf
- Sunlight: Part Shade – Full Sun
- Water Requirements: Moderate-High
A. Crassula ovata 'Gollum'
B. Crassula arborescens
C. Crassula 'Money Maker'
D. Crassula 'Pangolin'
A. Crassula socialis
B. Adromischus cooperi
C. Echeveria 'Dicks Pink'
D. Echeveria 'Magic Red'
A. Echeveria purpusorum
B. Optunia leptocaulis
C. Sedum adolphii 'Firestorm'
D. Sedum 'Lemon Ball'
A. Sedum lineare
   'Sea Urchin'

B. Senecio
   'Crushed Velvet'
Buddleia ‘Summer Skies’

• Bright and stable variegation.
• A high-drama plant for the summer garden, the soft violet-blue flowers of ‘Summer Skies’ buddleia contrast beautifully with the showy yellow and white variegated foliage.
• Resistant to scorching even in full sun.
• Bold, tropical foliage makes a statement in the landscape or containers.
• Part Shade to full sun
• 4’-5’ Tall and Wide
• Proven Winner!
Cotinus ‘Winecraft Black’ & ‘Winecraft Gold’

- Compact Smokebush
- 4’-6’ Tall
- No need to coppice, less likely to outgrow small spaces/takes up less room in the garden.
- Winecraft black has same stunning purple foliage of Royal Purple or Grace on a compact shrub (relatively speaking)
- Winecraft Gold brings all the drama and color of Golden Spirit on a smaller, better behaved shrub.
Fig 'Chicago Hardy'

- A hardy edible fig! 'Chicago Hardy' is
- One of the most cold-resistant figs on the market. Though it may die back to the ground in the colder ends of its range, it resprouts from the roots and will still bear sweet edible figs in autumn.
- Can grow in warmer parts of USDA zone 5 in protected sites; it should be mulched well in these areas for best results.
- Zone 6-10
Heptacodium ‘Temple of Bloom’

• Four seasons of beauty.
• Heptacodium has always been an under-used shrub: let’s change that!
• Improves on the straight species with a more compact habit and an earlier bloom, which means that its cherry-red bracts show up sooner for a memorable fall display.
• Handsome, high quality foliage and attractive peeling bark make this truly a plant for all seasons.
• 6’-10’ Tall and wide
• Full sun-Part sun
• Zones 5-9
• Heat and salt tolerant
• Average Water needs
Hydrangea, Oakleaf

*Hydrangea quercifolia*

‘Little Honey’

- Bright golden-yellow foliage is the hallmark of 'Little Honey' hydrangea, a branch sport of the dwarf selection 'Pee Wee'.
- The foliage emerges gold and changes to a pleasing chartreuse as the season progresses, especially effective in shaded areas.
- Brilliant red autumn foliage.
- Zones 5-9
- 3’-4’ tall and wide
Ilex verticillata
‘Berry Poppins’

• An excellent, heavy fruiting dwarf cultivar.
• Ideal for those who want bright winter color and fruit for cutting but don't have room for a conventional I. verticillata. It is heavier fruiting than ‘Red Sprite’.
• For berries on this female selection, a male pollinator is required; use Mr. Poppins® winterberry holly.
• Fruit is not edible.
• Zones 3-9
• 3’-4’ Tall and Wide
Thank you for your time!
